

*International Conference on*

## Message from Conference Chairs

Dear members of the ICEUTE family,

As you know, it was planned that the 2020 edition of ICEUTE conference was going to be held in the beautiful and historic city of Burgos (Spain), in September 2020. However, due to the COVID-19 outbreak, and taking delegate' health a as priority, the conference is being held fully online.

In this relevant edition a special emphasis was put on the organization of five special sessions related to relevant topics as: Role of English in Transnational Education and Teacher Training, Personalization and ICT: a Path to Educational Inclusion, Innovation and Research Findings in Engineering Higher Education, Practical Implementations of Novel Initiatives, Innovation in Computer Science Higher Education.

After a thorough peer-review process, the ICEUTE 2020 International Program Committee selected 44 papers authored by researchers from 24 countries, which represents an acceptance rate of 41%. The selection of papers was extremely rigorous in order to maintain the high quality of ICEUTE conference editions and we would like to thank Session Chairs and the members of the Program Committees for their hard work in the reviewing process. This is a crucial process to the creation of a high standard conference and the ICEUTE conference would not exist without their help.
